

7/29/11

To all concerned:

After the passing of my aunt in Reedsport, I had the task as her Personal Representative to manage the sale of her residence for the estate. As I live in the Portland area this task presented a number of logistical problems. After inquiring with Reedsport locals Norm Lacey's name quickly surfaced as a highly recommended and respected realtor in his community. Upon having an interview with Norm it became immediately clear that he had a firm grasp of the Reedsport market and what it would take to make a sale in a VERY challenging sales environment. He supplied me with comparable sales information that confirmed his pricing and marketing strategy along with valuable advice to make the sale as quick and easy as possible. Norm also has the backing of others in the community to help me make necessary arrangements for repairs and maintenance that were timely and of dependable quality at reasonable prices. Norm always returned calls and inquires in a timely and competent manner and if he didn't have an answer on hand I could be assured any concern would be addressed quickly and to my satisfaction.

Thank you Norm for your service and professionalism in helping me thru the task of selling my late Aunts home.

I would highly recommend Norm Lacey to anyone looking to buy or sell a home in the Reedsport area (or any ware).
