

Why I Use Zillow® to Sell Your Home

How Zillow helps us sell your home faster

- ▶ Zillow is one of the largest real estate Web sites, with **4 million** monthly visitors.
- ▶ 54 percent of buyers visit Zillow as part of their home-buying process.
- ▶ Buyers are using Zillow to find a home – I'll help them find yours!

Zillow has the tools I need to effectively market your home

- ▶ Placing your home for sale on Zillow creates a virtual “listing brochure” complete with price, description, multiple photos, and contact information.
- ▶ I can promote your home further by publishing the time and date of your open house.
- ▶ Through Zillow, I am in immediate and constant communication with prospective buyers because I receive an e-mail every time someone asks a question about your home.
- ▶ Together, we can watch how your listing is performing by tracking how many people have seen your home on Zillow.
